/src/main.cpp"] --> C;
```

The diagram illustrates a file dependency structure. At the top is a grey box containing the path to a header file: `/media/msgro/Maxtor/World_Imaker_merge/World_Imaker/glimac/include/glimac/CubeList.hpp`. Below this box are two white boxes. The left box contains the path to a source file: `/media/msgro/Maxtor/World_Imaker_merge/World_Imaker/glimac/src/CubeList.cpp`. The right box contains the path to another source file: `/media/msgro/Maxtor/World_Imaker_merge/World_Imaker/src/main.cpp`. Two blue arrows point from the bottom of each white box to the bottom of the grey box, indicating that both source files include the header file.
